Custom Add to Cart Button

Short Description

Stylize your add-to-cart buttons with custom text, colors, and icons. Fully customizable to match your brand and stand out from the crowd.

Custom Add to Cart Button offers a unique value proposition by allowing users to easily customize their add-to-cart buttons for their WooCommerce store. This feature is particularly valuable for store owners who want to enhance their brand identity and improve their store's conversion rates.

By enabling custom text, color styling, and icons for the add to cart button, store owners can create a unique look and feel for their store that aligns with their brand aesthetic. This level of customization can help distinguish their store from competitors and attract more sales.

Furthermore, the ability to selectively apply these customizations to specific products or categories, and even user roles, provides a high degree of flexibility and control over the store's design and functionality.

Features

- Customize the add to cart button with custom text, color styling, and icons.
- Apply customizations selectively to specific products, categories, or user roles.
- Choose from a variety of built-in icons or upload your own image/icon.
- Add custom icon classes to the button field for further customization.
- Style the button with different font sizes, weights, border, border radius, padding, and margin.
- Set button hover colors, background colors, and border colors for further visual customization.
- Easy to install and use with an intuitive interface.

Benefits

Add to Cart Button Customizer offers several benefits to online store owners, including:

Increased conversion rates - By customizing the add to cart button with eye-catching icons, colors, and text, store owners can encourage more visitors to add products to their cart and ultimately increase sales.

Brand consistency - With the ability to apply customizations selectively to specific products, categories, or user roles, store owners can create a consistent brand identity across their entire store, making it easier for customers to recognize and remember their brand.

Improved user experience - With a more visually appealing and easy-to-use add to cart button, customers can quickly and easily add products to their cart, resulting in a smoother and more enjoyable shopping experience.

Time-saving - With an intuitive and user-friendly interface, store owners can easily customize their add to cart buttons without having to spend a lot of time and resources on design and development.

Installation

1. Download the .zip file from your [WooCommerce account](#).
2. Go to: WordPress Admin > Plugins > Add New and Upload Plugin with the file you downloaded with Choose File.
3. Install Now and Activate the extension.

More information at: [Managing WooCommerce.com Subscriptions](#).

Setup and Configuration

To set up your store with custom add to cart. Go to: **WooCommerce** > Add to cart button customizer**.**

Customize Add to Cart Button Restrictions

Admin can select which products to include or exclude, choose specific categories and tags, and select the user roles to display the custom add to cart button.

Additionally, the admin can choose which pages to display the custom add-to-cart buttons on, such as the shop page, single product page, category page, or tag page.

Customize Your Add to Cart Button with Icon and Styling Options

Displays various styling and icon options available for customizing the add-to-cart button. You can upload your own image, add custom icon classes, and include icons in the text field to create personalized text for your add-to-cart button.

You can also adjust color options for the button, including hover colors and background colors.
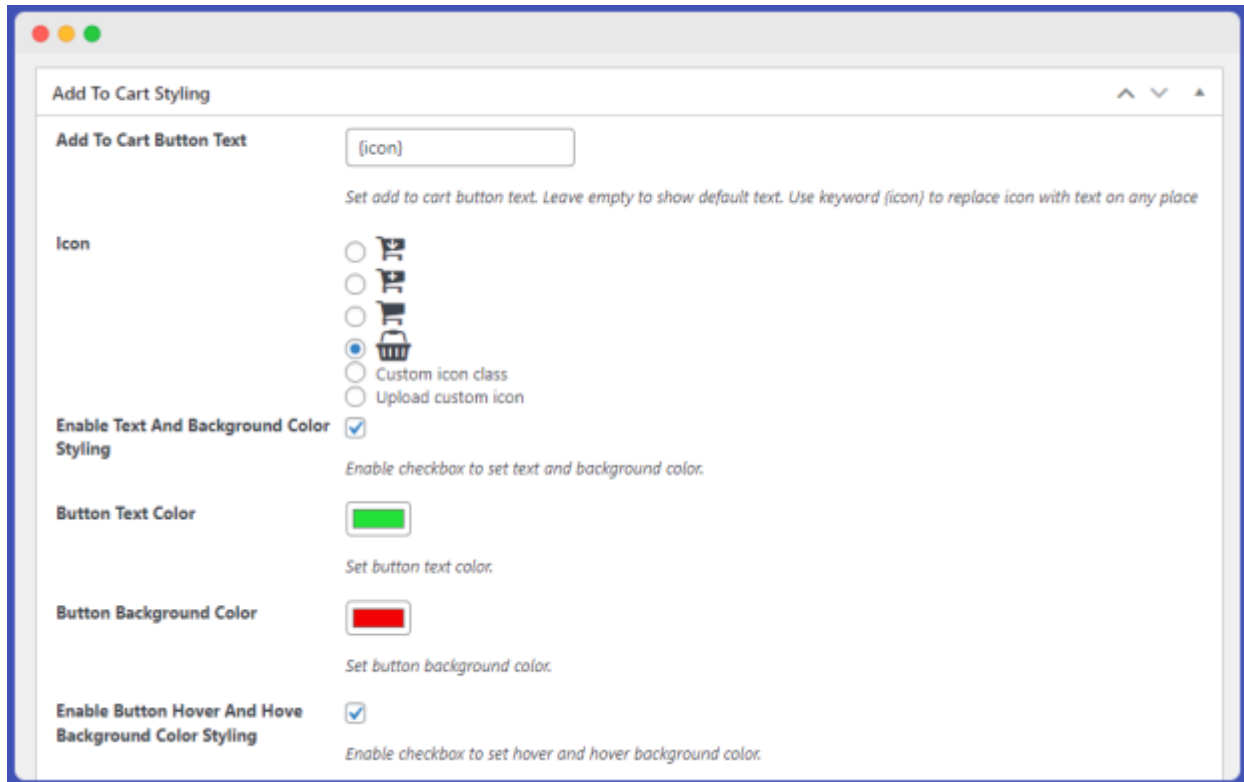

Customize Button Appearance

You can adjust the button\'s hover color and background color, as well as its border color. Additionally, the plugin allows you to change the font size and font weight of the button\'s text.

With these styling options, you can create a personalized and visually appealing add-to-cart button for your WooCommerce store.
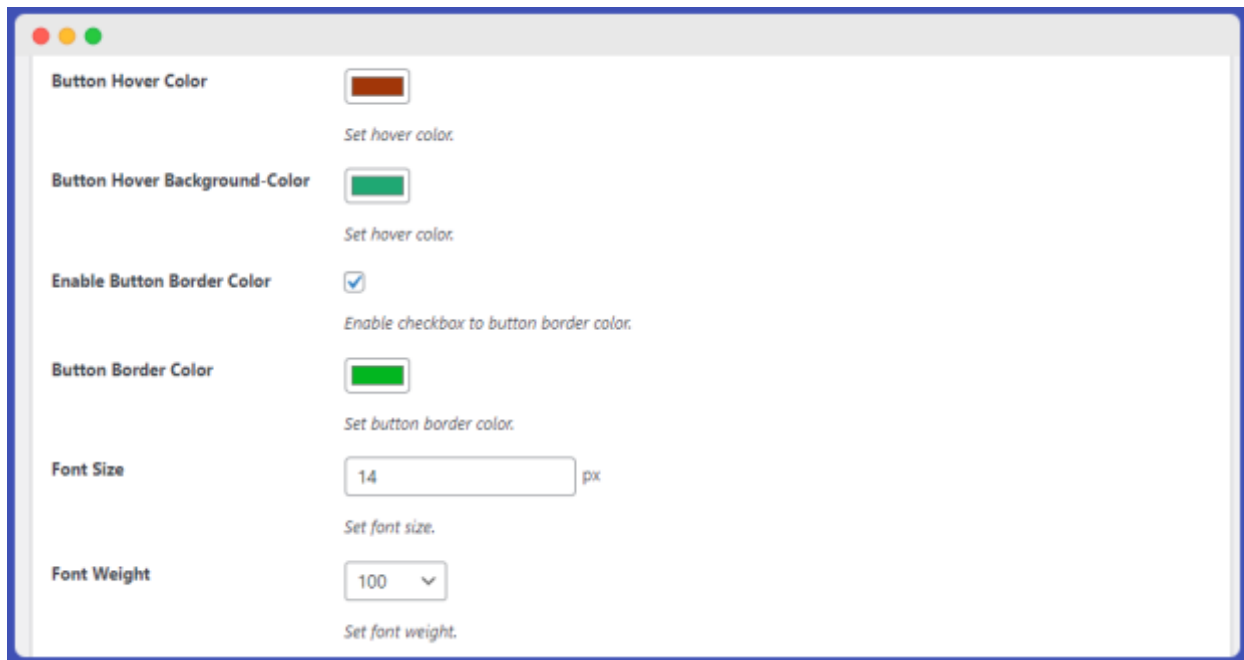

Customizable Layout Options

The plugin offers additional customization options to help you create a personalized add-to-cart button layout.

You can set the border and border radius of the button to create a different shape or give it a distinctive look. You can also adjust the padding and margin to control the spacing around the button. This allows you to align the button with other page elements or create a visual hierarchy.

Overall, these options help you create a unique add-to-cart button that fits your brand's aesthetic and design needs.
